

## CPD SEMINAR; UNDERSTANDING ROOFLIGHTS - REDUCING RISK & COST

### Summary

This CPD explains the main cost and risk factors to consider and monitor when using rooflights in modern industrial and logistic buildings. It also addresses mechanisms to mitigate risk and cost.

### Designed to suit

Main Contractor, Lead Design managers, Estimators or Quantity Surveyors. Developer Project Managers or Sustainability Managers. Facilities Managers, Building Owners and other Sustainability Professionals

### Aims

To Relate the choice of rooflight by type and configuration to:

- Safety
- Speed and Ease of Installation
- Capital and Operational Costs
- Daylighting Quality
- Sustainability

To emphasise the Importance of Testing, Technical Support and Guarantees.

### Outcomes

- To understand how to minimise unnecessary risk and cost when using rooflights
- To ensure that the correct rooflight type and configuration for the project is chosen
